PROFILE

I'm a Fullstack Developer with experience developing web applications using React.js, Redux for state management, Redux toolkit, TailwindCSS, Javascript and Typescript. Passionate about building and developing complex user interfaces and functionality using React.js.

Lastly, I'm passionate about creating robust and scalable web applications and API creation using MongoDB, NodeJS and ExpressJS technologies.

CORE COMPETENCIES / SOFT SKILLS

- Expertise in developing complex user interfaces using React.js and its ecosystem
 - Understanding of web technologies, such as HTML, CSS, and JavaScript, TypeScript, React, and their latest standards
 - Proficiency in using MongoDB to store, retrieve, and manipulate data.
 - Strong understanding of Node.js and its framework, Express.js.
 - Proficiency with Github and Git version control
 - Strong problem-solving skills to analyze and troubleshoot technical issues
 - Ability to work independently and as part of a team in a fast-paced and collaborative environment
 - Ability to adapt to new technologies and tools quickly and learn continuously
 - Attention to detail and a commitment to delivering high-quality code
-
